Harness the Power of

ANALYTICS

Analytics to Drive Actionable Answers

Knowledge is power. And in today's fast-paced world of healthcare, you might even say that knowledge is profit. In the era of reform and other market pressures on the horizon, data-driven planning is no longer an option, but a *necessity* for all aspects of the healthcare and insurance industries.

As such, you don't want to leave this valuable asset to just anyone.

Rely on PointRight to harness the power of your data.

We are the industry leader in providing data-driven analytics and decision support services to healthcare and insurance carriers. Why? Because we use the combination of our technology and renowned analytics experts to take our clients from insights to informed decisions that result in predictable and profitable results.

Using some of the largest and best databases in the industry, our nationally recognized subject matter experts, researchers, and technologists expertly translate disparate data into usable information that:

- Achieves substantial gains in profitability
- Enhances quality of care
- Streamlines clinical and administrative operations

PointRight also analyzes liability risks for the insurance industry. Using predictive models and underwriting decision support, insurance carriers can more quickly and accurately analyze and manage the risks that shape their bottom line.

Solutions Unlike Any Other

PointRight delivers unrivaled solutions based on our unique model-driven insight and clinical expertise. There are several key differentiators that set us apart.

Most Robust MDS Verification System

PointRight has been offering our patented Data Integrity Audit (DIA) service longer than anyone else – more than 15 years – and we have built the most robust MDS verification system in the industry. Assessments run through more than 300 proprietary algorithms checking for logical and clinical consistency.

Breadth and Depth of Our Analysis

PointRight offers unrivaled benchmarked and trended data analysis, and our real-time RADAR report that proactively identifies high-risk residents.

Access to Leading Subject Matter and Clinical Experts

PointRight's in-house healthcare expertise is grounded in an extraordinary 200+ years of combined experience caring for patients and operating healthcare organizations. Our nationally-recognized clinicians and researchers include physicians, registered nurses, clinical professors and research directors from many of the nation's leading healthcare institutions. Clients can access our advanced practice clinicians directly from within the system, or they can speak with a member of our research team.

Consulting

PointRight partners with clients on custom projects that leverage our expertise, databases and analytics. Our proprietary models enable us to help clients predict future revenue and threats to those revenues. We isolate strategies to reduce future professional liability losses by identifying their relationship to specific facility behaviors, staffing and practices. We reduce rates of undesired hospitalization and unexpected mortality and other adverse resident events.

No Hidden Costs

Simply pay the monthly subscription fee for PointRight services and that's it. There are never implementation fees and we never charge for staff training as long as you are a PointRight client.
